Notes to Editors:

Ironveld (IRON.LN) is a High Purity Iron, Vanadium and Titanium project located on the Northern Limb of the Bushveld Complex in Limpopo Province South Africa. Ironveld expects to mine its own VTM ore as feedstock for a 15MW smelter which will produce speciality iron products including high purity iron powder as well as Vanadium and titanium products.

The Definitive Feasibility Study published in April 2014 confirms the project's viability to deliver an exceptionally high grade iron product (99.5% Fe) called High Purity Iron which commands a premium in the market place. Vanadium and Titanium slag containing commercial grades of vanadium and titanium will also be produced and sold.

Ironveld's Board includes; Giles Clarke as Chairman, Peter Cox, CEO and Nick Harrison as a Non-Executive Director.

Ironveld is an AIM traded company. For further information on Ironveld please refer to www.ironveld.com.
